

Experiment N0 : 11

Date

Roll No.

Group No.

Aim: Case study on IoT applications for Industry

Project Title: (Application title/name)

Abstract: (Brief summary of the project in 150–200 words)

Objectives: (Goals of the project)

Problem Statement: (Define the problem your project solves)

System Architecture: (Block diagram and explanation)

Components Required: (Hardware and software list)

Circuit Diagram : (Attach Screenshots of connections)

Algorithm / Flowchart: (Steps or flowchart of execution)

Implementation: (Code snippets / development process)

Results: (Output screenshots)

Applications: (Real-world uses)

Future Scope: (Improvements that can be made)

Conclusion: (Summary of the project)
